

# Our awesome project title!

## The problem

*This is a short overview of what we set out to solve or build a tool for!*

## Progress

- 1. This is a quick highlight of the awesome work we got done during this hackathon!*
- 2. This might include “completed” code, tests/docs improved, bugs fixed, hurdles encountered and we you tackled them, ...*

## Status

*Is our work ‘ready for use’? Could use feedback or extra hands?  
Are there exciting planned future developments?*

**Where to find it:** *a link for people to see/use/contribute/etc*

## Optional Picture(s)

*(Code snippets, relevant background image, photos of your pets, sample plots created using a tool, etc)*
